SFR & Me: your Fibre installation appointment is scheduled: all the info here!

Dear Customer,

Your fiber installation appointment is scheduled, and you'll soon be able to enjoy your service. Here's everything you need to know to best prepare for our technician's visit.

The installation appointment at your home is scheduled
[redacted]'2026
The technician will arrive between 1:00 PM and 6:00 PM

Your contact phone number:
[redacted]733

Your order number:
[redacted]517532

Your installation address:
Mr. [redacted]
BT BUILDING-[redacted]-ES STAIRCASE [redacted]--
AND FLOOR [redacted]
[redacted] PARIS

What you need to know for your appointment

The installation takes approximately 45 minutes if your home is already equipped with a fiber optic connection. Otherwise, it can take up to 3 hours. An adult must be present for the entire duration of the installation.

You can change your appointment up to 24 hours before the scheduled date by clicking here .

3 things to do before our technician arrives

1. **Make sure your fiber optic socket is accessible,** or that the place where the socket is to be installed is clear.
2. **Get yourself a power strip:** it will be needed for the fiber installation.
3. **And if you live in an apartment building,** make sure you have access to the technical room.
